Are you into GREEN PRODUCTS? Here's your best choice

## Level 7

Curava is one of the most eco-friendly surfaces on the market today and comprises 100% recycled glass fragments within a resin binder. Currently, Curava is sold in 8 dynamic colors and patterns.

Curava is stain, scratch and heat resistant. It stands up extremely well to hot pots and pans and is a snap to clean up. Because Curava is non-porous, it's also very sanitary. With a little care and maintenance, even the hardest working Curava countertops will stay beautiful for years to come.

Curava is dedicated to environmental conservation. By removing discarded glass from our environment we can protect our natural world and ensure a greener future.

CORIAN®  
QUARTZ

Formerly known as Zodiac®

LEVEL 6

LONDON SKY

MARBLE MIST

---

Sourced from abundantly available quartz, the colors of Corian Quartz® surfaces achieve an improbable harmony between the durability of rock and the subtle interplay of light and natural crystal. Stain-resistant and nonporous, Corian Quartz® quartz surface is ideal for kitchens and baths because, when properly cleaned, it does not support the growth of mold or mildew. Because Corian Quartz® is made with quartz crystals, it's also extremely scratch-resistant. And, unlike other materials, you never have to seal, polish or recondition the surface to maintain its luster. Corian Quartz® quartz surface is easily cleaned with soap and water, and does not require sealants or waxes.
